COMMUNITY NEWS

Community Safety Month in October reminded us to take action to create safer places to live, work and play. Let's keep the message in mind for the whole year!

Children should be properly restrained every car trip. It can be hard to remember the child car restraint laws – so here is a reminder to keep our loved ones safe when travelling in the car.

Children under 6 months of age should be in a rearward facing approved child restraint.

Children aged 6 months to 4 years should be in either an approved rearward facing restraint, or a forward facing restraint with a 5 point in-built harness.

Children aged 4-7 years must be in an approved forward facing restraint, with either a lap sash or an internal harness.

Children aged 7 years or over must be in either an adult seatbelt or booster seat with a lap sash or H-harness.

Correctly fitted child car restraints can reduce harm from injury and death in a car crash.

For further information on child car restraints see www.childcarrestraints.com.au or call your local Health Promotion Officer at Southern Wheatbelt Primary Health Service on 9881 0385 to organise a free check of your restraint.
