FAMILY INFORMATION SHEET

Getting kids in and out of the car

When your children get in or out of the car they should always use the 'safety door'. This is the rear side door of the car that is away from traffic.

Keep your children in the car until you are ready to watch them get out through the safety door.

Try to park your car with the safety door next to the kerb or footpath - don't double park.

Your oldest child should be the first one you put in the car and the last one you get out. Why? They are more mobile and may stray away from your supervision while you get other siblings out of the car.

You can order a safety door sticker by emailing sdena.co@education.wa.edu.au

Place the sticker on the rear left hand side window to remind your child which door to use when getting in and out of the car.
